MANY MATTERS TO BE VOTED UPON

**Cochise Election Supplies About Ready
--Laws put Up to Voters for
Final Decision**

WOMAN SUFFRAGE ONLY INITIATIVE PETITION

The office of the board of supervisors is a busy place arranging for the coming election. The clerk of the board is at present sending to every precinct in the county the list of the nominees, sample ballots to familiarize the voters with, and other blanks and papers necessary to carry on the election properly.

The presidential electors of the five parties having tickets in the field and congressional candidates will occupy the top of the ballot. At the head of each column of electors is a square and in case the voter wishes to cast a straight ballot he will merely have to mark a cross in the square at the head of the column desired.

Following the candidates' names on the ballot are the proposed amendments to the constitution. There are four to be voted upon.

Following the above is the initiated measure proposing the amendments to the constitution in order to allow all citizens of the state of a certain age regardless of sex, to vote.

After the initiated petition on the woman suffrage amendment is the referendum ordered by petition of the people and include the miners lien law, the act regulating the number of men to be employed on trains and engines; the act pertaining to locomotive headlights; the act regulating the time that a railroad man must be in the state before being allowed to run a train or a locomotive; the car limit law, the three cent fare rate law, the semi-monthly pay day, and the and the game.

Kind Words From Old Home

The Gallup Independent of Gallup, N. M., has the following kindly word for our fellow citizens:

"The Hon. W. F. Koehnbecker, formerly of this city, is a candidate for mayor of Tombstone, Arizona. Mr Koehnbecker was an earnest worker for this town and for Democracy when a resident here, and from all indications has lost none of his old fervor. He filled many offices of trust in this county and town and the Democratic party of Tombstone made no mistake in choosing this man to lead the city ticket."

Dance Was a Grand Success

All who attended the big social dance at Gage Hall last night report the most enjoyable time of the season and one to be well remembered. The committee of ladies of the Sacred Heart church, who had charge of the affair did everything in their power to make it a success and are very well pleased with the outcome. The orchestra, composed of Messrs McSparron, Jenkins, McMahon and Haghart furnished excellent music for the dance and the refreshments served by the ladies were delicious. Rev Marx and the ladies wish especially to extend thanks to the people of Tombstone who attended and contributed to the good cause. The money realized from the dance will go to the church fund.

The past week in Patagonia district has been a most active one and by some will go down in history of the camp as "Millionaire" week from the fact of a number of men of millions coming into the district to look and become convinced of the great future of the copper camp of Santa Cruz county, and to look up their faith have purchased groups and will further show that they believe in copper in Patagonia country by putting men at work developing the groups now under bond.

At Flagstaff, the corner-stone of the new Episcopal church was laid Sunday afternoon with due ceremony by Bishop Atwood of Phoenix, assisted by Rev Joseph L Meade.

That the proposed water contract which went into effect on October 1st, is not unfair and that it will not retard the progress of the valley is the trend of the remarks by Secretary of the Interior Fisher during his auto trip to Granite Reef.

About 1000 head of cattle were shipped from Tucson today by J M Rostadt, W S Sturges and Teofilo Arce, and the purchase price is said to have approximated \$20,000. The cattle were driven overland from the Baboquivaris. The same cattle men will make another large shipment in about a month.

Besselo was the inventor of a pipe wrench which is believed by those who have seen the model, to be a very useful invention, but it has not been brought beyond the rough model stage. A company for its manufacture and sale has been formed. The literature issued by the promoter contained many misrepresentations, among which was a statement that with certain blocks of stock a lot in Southern California would go. A good deal of stock was sold about Bisbee and Tombstone.

Star Race Horses at the State Fair--Patchen a Turf Favorite

Although it is a fact not generally known, the fastest harness horses in the world will be seen in action during the week of the coming fair. It is safe to predict that nowhere in the country, not even on the grand circuit races this year, has there been such a collection of turf stars as will face Judge McNair during the week of the Arizona Fair.

For instance, who can say there is a better or faster animal than Joe Patchen, brought here by R J McKenney of Winnipeg. Joe Patchen was the big sensation of the grand circuit races this past season, winning thirteen events out of fourteen starts.
